

Advanced 2 Pages Per Sheet PDF Merger

Product Information Page:

http://www.advancedreliablesoftware.com/advanced_2_pages_per_sheet_pdf_merger.html

Advanced 2 Pages Per Sheet PDF Merger handles conversion of one or more input PDF documents to "2 pages / sheet" format. Multiple input PDF documents are merged together, then converted to "2 pages / sheet" format.

Common usage of this application:

- Convert one input PDF document to "2 pages / sheet" format
- Merge multiple input PDF documents and convert them to "2 pages / sheet" format.

The application always works with copies of your original input PDF documents. Your input PDF documents will not be affected by any conversion operation that will be performed on them.

Step 1 – Input PDF Files

Automatically add PDF documents to the grid

Click the "Select Input Directory" button to assign directory path that contains your input PDF documents. Advanced 2 Pages Per Sheet PDF Merger will persist your most recently used input directory path for future reference. Click the "Populate Grid" button. The application will automatically add all PDF documents located in the selected input directory and all of its subdirectories to the grid.

Manually add PDF documents to the grid

Click the "Add PDF File" button and browse to an input PDF document.

PDF documents will be merged together according to their position in the grid. To change PDF document's position in the grid select the file, then use the "Up" and "Down" buttons to move the file up or down.

Step 4 – Output Directory

Click the “Select Output Directory” button to assign output directory path. The application will automatically persist your most recently used output directory path for future reference.

Step 4 - Output Directory

Select Output Directory

C:\Documents and Settings\Administrator\My Documents

Step 5 – Merge Input PDF Files

Click the “Merge PDF Files” button to merge and convert selected input PDF documents to “2 pages / sheet” format. Your output PDF document will be created in the directory defined in Step 4.

Step 5 - Merge Input PDF Files

Merge PDF Files
