

Advanced Bulk PDF Merger

Product Information Page:

http://www.advancedreliablesoftware.com/advanced_bulk_pdf_merger.html

Advanced Bulk PDF Merger handles merging of multiple input PDF documents. Common usage of this application:

- Merge two or more input PDF documents into one PDF file.
- Merge select pages from two or more input PDF documents into one PDF file.
- Merge two or more input PDF documents into one PDF file and separate the documents with blank pages.
- Merge select pages from two or more input PDF documents into one PDF file and separate the documents with blank pages.

The application always works with copies of your original input PDF documents. Your input PDF documents will not be affected by any merging operation that will be performed on them.

Step 1 – Input PDF Files

Automatically add PDF documents to the grid

Click the "Select Input Directory" button to assign directory path that contains your input PDF documents. Advanced Bulk PDF Merger will persist your most recently used input directory path for future reference. Click the "Populate Grid" button. The application will automatically add all PDF documents located in the selected input directory and all of its subdirectories to the grid.

Manually add PDF documents to the grid

Click the "Add PDF File" button and browse to an input PDF document. Add at least two input PDF documents to the grid using the "Add PDF File" button.

PDF documents will be merged together according to their position in the grid. To change PDF document's position in the grid select the file, then use the "Up" and "Down" buttons to move the file up or down.

Add only odd page numbers as a range of values

Enter range and append word "odd" e.g. 1-6 odd, then click the "Add Page Numbers" button.

Page Numbers To Be Merged

Merge only specific pages from all selected PDF files
